ABOUT ME

I am a Bachelor's student in the Department of Computer Science at the GITAM University in Vizag graduating in June 2023. I am an aspiring frontend developer and a UI/UX designer continuously looking to learn new things. I am outgoing, dedicated and open-minded. I get across to people and adjust to changes with ease. I believe that people should work on developing their professional skills and learning new things all the time. Currently, I am looking for a job to enhance my existing skills and get my hands in the real tech world and try out the skills which I developed since I got exposed to the tech world

I have been part of the Drama club, 'FACES' the fine arts club of GITAM University. I am also part of a technical club, ACM and moreover, a frontend developer for the Summer Internship club(SIC) I am also a photographer and an actor by hobby and I have represented my college in various competitions in theatre. I love playing cricket and watching football and anime.

SKILLS

HTML

CSS

PROJECTS

WEATHEROID

September, 2021

- A simple website where you can find all the necessary weather details like wind speed, precipitation, cloud cover and many more of a particular city you search in a single page without going to multiple pages, also with a very clean and user-friendly UI.

COVIDSTAT

JUNE, 2022

- Need to review covid details of a country? Check out this website to review all the necessary details you required

CRYPTOCURRENCY REVIEWER

JULY, 2022

- In this website you can review all the top 50 Cryptocurrencies

NUMBER GUESSING GAME

NOVEMBER, 2021

- A basic number guessing game which is made completely using pure JavaScript and specially DOM manipulation. This was basically my first project using JavaScript when I first finished a course on JavaScript

WEBSITE UI(STATIC)

DECEMBER, 2021

- This website is made entirely using HTML/CSS along with SASS. I used various techniques like flexbox and Grid system to style the components. It's just a basic design website I made to practise myself to get my hands clean with HTML/CSS and SASS as preprocessor.
